WinPATS™ LogBOOK© for PC

WinPATS™ LogBOOK© is a **NEW,** powerful and versatile user friendly software specifically designed to **replace traditional log books and manual records.**

Use it with **any** Portable Appliance Tester (**PAT**) or simply just a mega/multi-meter.

This advanced stand alone software runs on Laptops, Tablets or portable PCs, for either field work or back at base reconciliation.

Test Result recording Data on appliances, sites or schedules is performed quickly and seamlessly. Many previously wearisome time consuming tasks and manual steps are abolished.

Manual Test & Tag or Asset Management, Safety jobs and Projects all become simple. Create, recall or manipulate records quickly & efficiently when **PAT** connectivity is non-existent or just too complex.

WinPATS™ LogBOOK© provides a host of features previously only available in high end, high priced applications.

LogBOOK© is intuitive and provides users with sensible tools to create Icons, summary reports, printable worksheets and records, plus a host of many other features & functions

Print a '**CERTIFICATE of COMPLIANCE**' on site! (if printer connectivity is available).

New visual screen layouts are simple to use and negotiate providing the operator with powerful features in no nonsense, user definable fields with summaries, history and many other searchable reports.
